

REDDY says:

*"Let's Go Modern---
 It's Really Cheaper"*

"Let me come into your home today and show you the way to better living through the use of my services. The homes where I work are living better, more comfortably, without drudgery, labor and worry—they are actually **LIVING BETTER FOR LESS.**"

Electric refrigeration, electric ranges, electric water heaters—any of these appliances may be had on terms to fit your budget—easy to buy . . . inexpensive to operate . . . So again Reddy says: **"LET'S GO MODERN . . . IT'S REALLY CHEAPER."**

INTRODUCTION

HILL DIRECTORY CO., Inc., publishers of Southeastern Directories, present to subscribers and the general public, this, the 1942 edition of the Charlotte City Directory, which also includes Amity Gardens, Briar Creek Park, City View Heights, Club Colony, Commonwealth Park, Glenwood, Green Hills, Grier Heights, Hoskins, Marsh Estates, Myers Park Manor, Oakhurst Heights, Pharr Acres, Poplar Gables and Washburn Heights.

Confidence in the continued growth of Charlotte's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Charlotte to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Charlotte Directory will fulfill its mission as a source of authentic information pertaining to the community.

Five Major Departments

The five major departments are arranged in the following order:—

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is included in pages 29 to 875, on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Charlotte and vicinity, and the name, official personnel, nature and address of each firm and corporation.

THE BUYERS' GUIDE, preceding the Classified and separately paged from 1 to 92, on goldenrod paper, contains the advertisements of leading manufacturing, business and professional interests of Charlotte and vicinity. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a large commercial and industrial center like Charlotte, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 969 to 1055, on yellow paper. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, on pink paper, covers pages 1057 to 1226. In this section the named streets are arranged in alphabetical order, followed by the numbered streets in numerical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Features of this section are the designation of tenant-owned homes and the designation of homes and places of business having telephones.

THE NUMERICAL TELEPHONE DIRECTORY, on blue paper, begins opposite page 1228.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence,

as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Charlotte and vicinity.

The Charlotte Directory Library

Through the courtesy of the publishers of the Charlotte City Directory, a Directory Library is maintained in the offices of the Charlotte Chamber of Commerce, for free reference by the general public. This is one of more than 500 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

“WHAT YOU SHOULD KNOW ABOUT YOUR CITY”

“The helpful kind of patriotism is the kind that grows out of a knowledge of one’s town, of her growth, her people, her property, her government and her needs. This knowledge develops, first, an intelligent interest; then, a sympathy; then a reasonable affection, a wise and temperate jealousy for her good name and a wish that she may prosper and grow more beautiful; and, finally, a desire to help her to become greater and finer, a bright and clean workshop and a home for the best of men and women.”—John Cotton Dana.

CHARLOTTE

"THE QUEEN CITY"

(Courtesy The Charlotte Chamber of Commerce, Inc., Charlotte, N. C.)

Charlotte is located in the center of a territory recognized as the most rapidly developing industrial and commercial section in the South. The eyes of the commercial as well as tourist world are focused on the Piedmont Carolinas, the section of which Charlotte is the geographic and industrial center.

The city that had the greatest increase in population between 1930-1940 was Miami, Fla., with the following cities in consecutive order: San Diego, Calif.; Washington, D. C.; Jacksonville, Fla.; Houston, Texas; and CHARLOTTE, N. C. Charlotte stood sixth in the nation, with a gain of 21.4%. There are now in the U. S. only 92 cities of more than 100,000 population, and Charlotte is the 91st city, with 100,899 inhabitants. In 1930 its place was the 101st, so, then, it moved up ten places within the ten-year period.

Hard-surfaced roads radiate from Charlotte in every direction. Eleven highways enter Charlotte. Three national highways cross North Carolina State highways at Charlotte. North Carolina has 9,000 miles of paved roads. Two million people can come to Charlotte from a radius of 100 miles by automobile, transact business and return home on the same day.

Charlotte's Skyline in the Distance

Charlotte is the distributing center of the Carolinas and is the natural radial point for the railroads of this section. There are eight railway lines radiating from Charlotte, this situation making possible a maximum of railway trackage for new industries of various kinds. Charlotte has an abundance of skilled and unskilled labor willing to give an honest day's work for a reasonable wage. Charlotte is not disturbed by continued labor difficulties, strikes and labor agitation.

The quality of Charlotte's water is excellent. The supply is abundant, with a modern filter plant, completed at a cost of \$1,000,000 or more, and a daily capacity of 16,000,000 gallons and an average daily pumpage of 8,500,000 gallons.

Electricity, ample and at low rates, has been probably the greatest factor in the industrial and commercial development of Charlotte.

Charlotte's rapid growth as a manufacturing and business center has developed financial institutions commensurate with the demands of the rapidly-growing city and section which they serve.

Charlotte is live, aggressive and progressive.

Charlotte citizens cooperate in matters which prompt the civic, commercial, religious and industrial welfare of the community.

Charlotte is a friendly city. It welcomes the newcomer, be he from the North, West, East or South.

MUNICIPAL

Douglas Airport, Owned

Charlotte's Municipal Airport is in the fifth year of operation and has shown a rapid growth in services to the public in that short time.

A radio beam tower and control building were erected on airport property during 1939. This enables practically all planes, flying under adverse weather conditions, to land safely at the airport.

The U. S. Army has established an Army Air Base unit at the Municipal Airport, with an expenditure of more than \$2,500,000 in the development of this base and the airport, and this will be enlarged later.

AIRPORT

by City of Charlotte

Eastern Air Lines operate seven planes daily through Charlotte. Over 2,500 visiting planes, excluding air liners, have landed at the airport during the last twelve months.

Besides the Municipal Airport, Charlotte has a privately-owned airport—the Cannon Airport, which is complete in every detail.

HISTORY

Charlotte, the county seat of Mecklenburg, named for Princess Charlotte of Mecklenburg-Schwerin, wife of George III of England, was incorporated as a town in 1768. The name Mecklenburg was given to the county in honor of the Queen's birthplace. The early settlers were made up of Scotch-Irish from Pennsylvania and Virginia; Germans from the same sections; and English, Scotch, Germans, Huguenots and Swiss from the South by way of Charleston.

A court house, constructed of logs, had been built in the town a few years previous to its incorporation, and the county court was held there, which probably accounted for Charlotte being selected as the county seat. The court house was located at the intersection of the streets now known as Trade and Tryon.

Charlotte is famed as the place where the first Declaration of Independence was made on May 20, 1775.

Mecklenburg Declaration of Independence

"Resolved: That we, the citizens of Mecklenburg County, do hereby dissolve the political bonds which have connected us with the mother country; and absolve ourselves from all allegiance to the British Crown, abjuring all political connection with a nation that has wantonly trampled our rights and liberties, and inhumanly shed the innocent blood of Americans at Lexington.

"Resolved: That we do hereby declare ourselves free and independent people; that we are and of right ought to be a sovereign and self-governing people, under the power of God and the general congress; to the maintenance of which independence we solemnly pledge to each other our mutual cooperation, our lives, our fortunes, and our most sacred honor.

"Resolved: That all officers, both civil and military, in this county, be entitled to exercise the same powers and authorities as heretofore; that every member of this delegation shall henceforth be a civil officer and exercise the powers of a justice of the peace, issue process, hear and determine controversies according to law, preserve peace, union and harmony in the county, and use every exertion to spread the love of liberty and of country, until a more general and better organized system of government be established."

Early Schools and Education

The people of Mecklenburg brought with them, in the settlement of their new country, the love of education. The first schools were conducted in the homes of the teachers of their patrons. Prior to the time of the American Revolution a number of school buildings had been erected. Queens College, or Museum, located within Charlotte, and within the territory of Sugar Creek Church, was the most noted school of Colonial times in Mecklenburg County. This college was located on a lot on South Tryon Street, where later, for many years, stood the Mecklenburg County Court House.

Early Churches and Religion

Seven churches of importance in Colonial days in Mecklenburg County were: Sugar Creek, Rocky River, Poplar Tent, Hopewell, Steel Creek, Providence and Centre. The congregations of these early churches were composed of men and women of strong character, high motives and dignified demeanor. To their influence throughout the community and upon succeeding generations may be attributed the fine type of Christian citizenship which has characterized the people of Mecklenburg County. Many members of the families composing these seven Colonial churches have gone out to other sections of the U. S., particularly to the Southwestern and Middle Western sections of the country, to establish homes and to carry with them the fine ideals of citizenship and Christian influence of their Mecklenburg ancestry. Numbers of the descendants of these Mecklenburg citizens who moved to other parts of the U. S. make pilgrimages to the venerable churches to read upon tombstones in the old burying grounds records of the lives of their forefathers. Upon anniversary occasions of these historic churches, all-day services are held and men and women from many distant states are numbered among the persons in attendance.

CHARLOTTE TODAY

Thirty years ago the South began to arouse from her bed of rich, deep traditions and better herself. There is a new South today—an onward-driving pulsating South in industry, agriculture and finance.

City Armory-Auditorium, Charlotte

Fundamentally successful industries develop best where abundant raw materials, mechanical power and stable population combine. Tremendously rich in natural resources, power and raw materials, the South has marched forward with seven-league boots, and today, the economic advantages resulting from the development of her resources are leading the trail of industry southward.

This is true, not only in the textile field, where advantageous conditions of power, climate, labor and living conditions at the source of raw materials have already transferred the center of industry from New England to the South, but in other lines of diversified manufacturing as well.

North Carolina today is the pacemaker of the South; it leads in textile manufacturing and hydro-electric power development, and Charlotte is the center of a textile manufacturing territory having 770 mills, operating over 10,000,000 spindles and consuming more cotton than any other section in the world.

Charlotte is the center of one of the largest hydro-electric developments in the U. S., the total horsepower developed and in immediate prospect of developing being more than a million.

It is the largest center in the South for textile mill machinery and equipment, practically all the large companies in the U. S. and England handling their entire business in the South through Charlotte offices and plants.

It is the "Southern Market" for dyestuffs, laboratories and offices being maintained here by the leading dye corporations of the country.

Charlotte Country Club

Charlotte has annual payrolls of over \$12,750,000 from 285 widely diversified manufacturing and industrial plants.

Charlotte's Greatest Asset

The climate of Charlotte is outstanding, and can be classed as the city's leading asset. The U. S. Weather Bureau has made records of Charlotte's climate for the past 45 years and the fact is developed that the people of this city live the year 'round in a temperature which averages 60.2 degrees. The mean maximum temperature is 69.5 degrees and the mean minimum is 50.9 degrees. The vicinity is favored in wind and rain, in sunshine and shadow. Agricultural activities may be pursued practically without interruption throughout the year.

Manufacturers and Manufacturing

Charlotte has many distinct advantages to offer the manufacturer—four competing rail lines, low freight rates, pure water and a convenient location. Manufacturers should investigate this thriving city. Living conditions are ideal. Climate is mild and pleasant, and schools are among the finest in the South. Excellent hotels and shops. Cordial social life. Several excellent golf courses.

Power

Charlotte is the home of the Duke Power Co., operating one of the best steam and hydro-electric systems in the world. Southern electric companies are tied up into a great super-power zone, and abundant "white coal" assures ample power at low cost.

Labor

Charlotte's labor is of the finest in the country today—native, white, sober, industrious. Labor troubles are practically unknown and the labor turnover is small.

Central High School, Charlotte

Textiles

Here the textile development of the South is centering. Seven hundred seventy mills operate 10,000,000 spindles within 100 miles, and a great business has grown up in supplying these mills with dyestuffs, cotton, machinery and equipment of all kinds.

As a Manufacturing Center, Charlotte Offers:

1. Low power rates for manufacturing purposes.
2. Close proximity to the sources of all material for finished products.
3. Cotton, cotton yarns, cottonseed, cotton oil, tobacco, peanuts, kaolin, wood pulp, lumber, etc.
4. Logical location for a manufacturer of commodities for export through the ports of Norfolk, Wilmington, Charleston and Savannah.
5. A very desirable type of high-class labor available to manufacturers.
6. Mild climate conditions throughout the year. There are nine months of exceptional open-season weather.
7. The adequate transfer facilities of four railroads, with daily terminal facilities of 5,200 carloads.
8. Desirable living conditions and unusual residential developments.

Trade Center and Ideal Distribution Point

Charlotte has a greater population within a 50-mile radius than Richmond; a greater population within a 100-mile radius than Atlanta. Charlotte is the geographical and business center of the Carolinas.

QUEEN'S COLLEGE

Queens College has an interesting history of 84 years. Many forces have contributed to its development. Founded in 1857 by a group of Christian leaders, the institution purposes to send into the nation to strengthen our civilization and to lead new generations, a continually-flowing procession of educated young women, with intellects trained to think, with personalities graced with cultured charm, and with lives motivated by Christian principles and loyalty.

The College is fully accredited by the North Carolina College Conference and by the Southern Association of Colleges and Secondary Schools. It is also a member of the Southern Association of Colleges for Women and of the Presbyterian Educational Association of the South.

The College campus is located in the heart of Myers Park, one of Charlotte's most beautiful residential sections. The city, the largest in the two Carolinas, offers much to students through the many civic organizations which contribute to the educational and cultural life of the community.

The College accepts the liberal arts curriculum as basic, a program of education proved effective for more than 300 years. Diverse in scope, the curriculum includes instruction in the traditional liberal arts and sciences, in pre-vocational subjects, and in the fine arts.

All departments of the College function in vital connection with the community. From this association, students gain in practical and cultural values, and in turn they contribute of their resources.

MECKLENBURG COUNTY

Gained 23,855 Population, 1930-1940

Mecklenburg County, according to the 1940 U. S. Census, had a population of 151,826, an increase of 23,855 over 1930. The increase was approximately 18% for the ten-year period.

The population of Charlotte was established as 100,899 by the 1940 Census, an increase of 18,224 over 1930. This means that all but 5,631 of the increase in the county's population was within the city limits of Charlotte.

The Census revealed that Mecklenburg County had 3,136 farms.

The population of Charlotte Township, which includes a fringe of land all the way around the city limits, was set at 113,163. Nearly all the county's population gain was in the city and Charlotte Township.
